Actual Power Output means the power output of the Module, expressed in Watts, measured at STC at a given point in time in a year after the Warranty Start Date, corrected for any measurement error, as per IEC 61215.

For each year after the first year following the Warranty Start Date until the end of the applicable Limited Power Warranty Period, Jinko warrants that the Degradation Rate of Modules shall not exceed the applicable Annual Degradation Rate set forth at Table 1 applicable for each Module Type.

Degradation Rate means any positive amount calculated in accordance with the following formula, expressed as a percent:

$$\text{Degradation Rate} = (\text{Nominal Power Output} - \text{Actual Power Output}) / \text{Nominal Power Output} \times 100\%$$

In the first year following the Warranty Start Date, the applicable maximum Degradation Rate of Modules set forth at Table 1

Nominal Power Output means the original manufactured nameplate specification of power in the Module (Maximum Power,  $P_{max}$ ), expressed in Watts, and measured at STC, excluding any specified positive tolerance.

Jinko provides the Limited Warranty set forth herein commencing upon the earlier of one of the following dates:

- A. The date which is one hundred and eighty (180) days following the Module manufacture date, as indicated by the serial number[digit no. 7-11 (YYMDD)] starting from the left side of the serial number, with the letter corresponding to the month as indicated in the table below for such Module.

Beginning on the Warranty Start Date and for the Limited Product Warranty Period, Jinko warrants that the Module and its respective DC connectors and cables (hereinafter referred to as the "Products" ) will be free from material defects in workmanship which impair the performance of the Products. Material defects shall not include changes in appearance or normal wear and tear of the Products.

Beginning on Warranty Start Date and for the first year following the Warranty Start Date, Jinko warrants that the Degradation Rate of Modules shall not exceed the applicable First Year Degradation Rate; for each year after the first year, the Degradation Rate of Modules shall not exceed the applicable Annual Degradation Rate, as set forth at Table 1.

- a) Customer shall bear the burden of establishing a breach of the Limited Product Warranty or Limited Power Warranty (collectively, "Warranties" ), and if Customer believes that there has been a breach of the Warranties, Customer shall promptly and no later than thirty (30) days via email [cs@jinkosolar.com](mailto:cs@jinkosolar.com) after knowledge thereof, provide notice to Jinko setting forth the following evidentiary documents or information related to the claim:
- 1) Identifying information of the claimant;
  - 2) A detailed description of the claim;
  - 3) Supporting materials including photos of affected modules or testing reports;
  - 4) Serial number, types, and numbers of affected module;
  - 5) Evidence of purchase of the affected Module and Warranty Start Date;
  - 6) Initial installation location;
  - 7) Other supplementary information required by Jinko; and
  - 8) Upon request by Jinko, the actual Module(s) allegedly causing the breach.

In the event that Customer fails to notify Jinko and provide the relevant information of (1)-(8) as described above, Jinko is entitled to refuse to process the relevant claim without any liability.

- b) Jinko will review and evaluate alleged claims after receipt of the claim and full information as stipulated herein. If Jinko at its sole discretion considers it necessary, Jinko can request the Modules be shipped to the Independent Testing Lab for testing. In the event Customer returns the Modules without written consent from Jinko, the risks (including but not limited to damage and loss of the Modules) and expenses related to the Modules shall be borne by Customer.
- c) Notwithstanding anything to the contrary herein, Jinko shall be entitled, in Jinko' s sole discretion upon written notice to Customer, to require that any breach of the Warranties alleged by Customer be reviewed by TÜV Rheinland, TÜ V SUD or other neutral third party

- carry out the repair project for the affected modules; or
- 2) Replace the defective Modules. In such case, the replacement modules' Actual Power Output shall be no less than the Theoretical Minimum Residual Warranty Power Output of the replaced Module(s)  

$$\text{Theoretical Minimum Residual Warranty Power Output} = \text{Nominal Power Output} * (1 - (\text{First Year Degradation Rate} + \text{Annual Degradation Rate} * (N-1)))$$
 Note: year N,  $0 \leq N \leq \text{Limited Power Warranty Period}$ ; or
  - 3) Refund the \_\_\_\_\_ of the defective modules or refund the \_\_\_\_\_  
 (Gap between the Theoretical Minimum Residual Warranty Power Output and the Actual Power Output of the defective Module(s))
- Residual Value = Current Price (price-per-watt) \* Nominal Power Output \* (Left-over Limited Power Warranty Period / Limited Power Warranty Period)
- Value Equivalent of Output Gap = Current Price (price-per-watt) \* (Theoretical Minimum Residual Warranty Power Output – Actual Power Output)  
*The Current Price (price-per-watt) is determined by Jinko; or*
- 4) Provide additional Module(s) to compensate for the power output loss for any Module which causes a breach of the Warranties.

b) Remedies Description

Unless otherwise agreed in writing, additional, repaired or replacement Modules shall be delivered to the same destination and on the same INCOTERMS 2020 delivery basis that the original Module causing breach of the Warranties was delivered under the purchase agreement to which this Limited Warranty applies. Replaced Modules received by Jinko pursuant to Section 2.2 shall be the sole property of Jinko. Jinko shall be solely responsible for all shipping costs incurred performing its additional supply, repair or replacement obligations under this Section 2.2(b). For avoidance of doubt, it is expressly stated here that any costs incurred due to dismantling, repacking, installation or re-installation the Module(s) and other related expenses shall be borne by the Customer. Additional or replacement Modules shall be of the same type ☐ or a different type ☐ and i

belong to Jinko, and Jinko shall bear the transportation costs related with delivery of the Module(s) from their original place to the destination location designated by Jinko.
